How it works

Once the person you referred establishes a new membership with the credit union, they will have 60 days to complete any or all of the qualifiers listed.

If they open a checking account and have qualifying direct deposits of $500 or more **you will receive $25**, if they have 24 or more debit card purchases, you will **receive an additional $25** and if they obtain a new loan for $20,000.00 or more you will **receive an additional $50.00**. The new member will receive the same referral benefits for products that were completed.

The new member must notify the Connects employee at the time of account opening of the name of the person who referred them.

Referral rewards are paid out within 5 days of the month following the members 60th day. For example if the members 60th day is April 5th, rewards will be given on or about May 5th. New members do not have to complete all three steps to qualify. You will obtain a referral bonus only for the qualifying products completed by the member that was referred.

Reward incentives may be reported to the IRS on a 1099 if you receive $600 or more in cash rewards/dividends within a calendar year. If either the new member's or referring member's membership is closed prior to rewards posting or if any activity or application information is discovered to be fraudulent; rewards will be forfeited.
